

COSUE 2018

--	--	--	--	--	--

A diagram showing a circular network topology. Six nodes, represented by syringes with colored caps (red, blue, black, green, yellow, and orange), are arranged in a circle. Each node is connected to a central hub, which is a circle with a cross-hatch pattern. The nodes are also connected to each other in a ring configuration, forming a mesh-like structure.
